Control the World!

Mastery, might, power and total domination are what you'll experience when you put one of these babies in your hand. From the RC2000mk2 to the RC9200, you'll have the ability to exercise authority over any imaginable individual component or home theater system. Each remote is totally customizable, incorporates easy-to-read backlit displays and has the capability for one button system operation via programmable "macro" functions. No one should have this much control, not even the president; unless, of course they own a Marantz remote. Take control and visit a Marantz dealer today.
Fingertips in Control
Designed for easy-to-use, intuitive control, Marantz offers a complete line of programmable system remotes. Want to control an entire entertainment system at the touch of a button? With a Marantz programmable remote, it’s no problem. From the award winning and reviewer acclaimed, “Remote of the Gods” RC2000mk2, to the color touch panel display of the highly renowned RC9200, all of our remotes feature one button “macro” operation. Each remote is also pre-programmed to operate an entire Marantz audio video system right out of the box. If that isn’t enough, each remote provides powerful learning and program capabilities to meet and exceed your systems requirements.

The Touchscreen Way
Our touch screen remotes provide many enhanced features. The RC9200 includes a large, full-color display (the RC9200 and RC3200 include a B & W display), with an adjustable contrast dial for personal preference. All of our remotes can be turned on with the manual backlighting button on the side. The RC9200 displays 256 breathtaking, high-resolution colors and has 8 MB of nonvolatile, flash memory (RC2000 is B&W with 2 MB memory). The RC3200 features a blue EL backlighting for the LCD, intuitive hard buttons and displays a resolution of 160 x 100 pixels. The hard buttons are intuitively placed to provide instant access to the most used functions as well as instant navigation between screens. Each touch screen panel is treated with an excellent anti-glare coating for significantly reduced reflection and optimized readability under different viewing angles.

An Eye on the Future
Want more control? With Windows compatible software from Marantz and your PC, you can incorporate custom animation, channel icons, custom graphics and even your own photos into the remote. What about the future? Be sure to check out www.marantz.com for upgrades and updates to the programming software. It's just another way of keeping you in control.

RC9200/RC5200
- Pre-Prog. Marantz Codes
- High Res. (320 x 240) Pixels LCD Display
- Editable Macros (255 Commands per Macro)
- Limitless Number of Devices, Macros, Panels and Button
- Adjustable Brightness
- Large Touch Screen
- Setup Protection
- IR/RF Transmission Capability
- Adjustable Timer for Sleep Mode
- 14 Programmable Direct-Access Buttons
- Backlighting for LCD and Direct Access Buttons
- Independent, Adjustable Back Light Timer for Hard Buttons and Screen
- IR Sending and Learning Eyes
- Mode, Macro and Device Icons Can Be Activated/Deactivated
- 3-Wire (RS232)
- Serial Port Connector
- 3-Wire (RS232)
- IR Sending LED and Learning Eye
- Learning Frequency up to 56 kHz and 455 kHz
- 1 MB Non-Valuable Flash Memory Macro, Beep and Timer Function
- Two-way Communication Capability with Marantz SR8200/SP9200

RC3200
- Monochrome Touch Screen LCD
- 160 x 100 Pixel Resolution
- 4 Gray Scale Levels
- Digital Contrast Control
- Blue EL Backlighting for LCD and Hard Buttons
- Pre-Programmed Marantz IR Codes
- 3-Wire (RS232)
- Serial Port Connector
- IR Sending LED and Learning Eye
- Learning Frequency up to 56 kHz and 455 kHz
- 1 MB Non-Valuable Flash Memory Macro, Beep and Timer Function
- Two-way Communication Capability with Marantz SR8200/SP9200

RC2000mk2
- Easy-to-Read LCD Display
- With Adjustable Contrast
- Illumination Feature for LCD and Buttons
- Simplified Programming, Naming & Control Functions
- Separate Channel Up/Down Keys Located for Easy, Comfortable Access
- Separate Channel Up/Down Keys Located for Easy, Comfortable Access
- Large Memory Capacity
- Non-Valuable Memory Assures Programmed Commands Will Not Be Erased From Memory
- Audible “beep” Confirmation of Entered Commands
- Macro Capability
- Re-naming Feature to Customize the LCD Labels
- Built-in Commands for Marantz A/V Components
- DSS Functions Provided for Popular DSS Equipment
